

## 2025 Street Reconstruction Project Update

City of Lakeville Public Works 

# Construction Update

### Private Features in City Right-of-Way

We ask that residents locate private features in the City right-of-way so the contractor is made aware that there may be irrigation or invisible dog fences in the boulevard. The contractor will do their best to try to minimize damage to these systems and will repair during restoration.

[Watch this video demonstrating areas impacted by construction.](#)

### Phase 1 - 170th Street & Hayes Avenue

#### Week of August 18:

- Temporary mailbox locations will start. Door hangers will be delivered on Friday, August 15 with details.
- The contractor will continue storm sewer and drain tile work.
- Curb, pedestrian ramp and sidewalk removals will start.
- New curb, sidewalk and pedestrian ramp installation will follow later in the week.

#### Week of August 25:

- The contractor will continue drain tile installs.
- New curb, sidewalk and pedestrian ramp installation will continue.
- Concrete installation will continue followed by driveways.

If individual driveways are impacted by construction, residents will be notified via door hanger to discontinue use and for how long.

Please be cautious and reduce vehicle speeds when approaching crews working in the roadway. Construction personnel will notify drivers, via hand signals, when it is safe to pass around moving equipment.

Further updates will be provided as the project progresses. ***The schedule may be shifted due to weather and unexpected delays.***
